

Epic 1

Creating the application

Epic 2

Creating a home page (feed) for users

Epic 3

Creating a post

Story | 37

Creating gitlab project

Creating Java project

Adding Jersey and Servlet

Adding JDBC connection

+

As a user, I want a completed home page, with buttons that navigate me through different pages.

As a user, I want to see posts of other users in my home feed

As a user, I want to be able to filter my home feed so that I would have a more personalized experience

+

As a user, I want to create posts with details so that other users can interact with it

As a user, I want to be able delete my posts

As an admin, I want to manage all posts such as deleting or updating to control the posts in terms of security, sensitivity or culture of the application

As a user, I want to classify my posts while creating so other users can find the post under a section with details

Release 1

Epic 4

Interacting with posts

Epic 5

Creating sponsor interaction and event management

Epic 6

Creating a search bar for posts and users

Epic 7

Creating an Authentication System

As a user, I want to like/ comment on posts to interact with the community

As a user, I want to be able to share posts with others via different methods

As a user, I want to save posts so that I can interact/see them later

As a user, I want to be able to edit my posts so that I can change them after posting

+

As an admin, I want to create posts for sponsors or events so that they can highlight key information and promotions

As a sponsor, I want to see how many users interact with my sponsored content so that I can assess the impact of my advertisements

As a user I want to be able to filter my search so that I can distinguish between searching posts and people.

As a user, I want to be able to search for posts so that I can find relevant content.

As a user I want to be able to find other people by their usernames so that I can see their profile pages, add them and communicate with them.

+

As a user, I want to be able to sign up using my email so that I can create a personal account

As a registered user, I want to log in to my account using my credentials

As a user, I want to be able to reset my password if I forget it so that I can regain access to my account
